Industry Forum Announced for Smart Lighting Project

The District is pleased to announce an Industry Forum regarding our Smart Lighting Project hosted in Washington, DC on January 24-25, 2017. The purpose of this Project, which is a joint effort with the District Department of Transportation (“DDOT”) and the Office of the Chief Technology Officer (“OCTO”), is to upgrade the District’s streetlight network to all-LED technology, establish a platform for ancillary uses, and deliver long-term system operations and maintenance under a performance-based regime to ensure a modern and high-performing streetlight system for years to come. For more information and to register for this exciting event, please visit op3.dc.gov/streetlights.

Project Pipeline Released at *DC Builds!*

On October 28th, Mayor Bowser and OP3 hosted *DC Builds!*, a half-day forum that brought public officials, potential partners, policy experts, and residents to discuss the state of the District’s infrastructure. OP3 released the District’s first ever [project pipeline](#) to the standing room only crowd. You can [watch video](#) and [review the presentation](#) from the event. We look forward to an event bigger event this year!

(Mayor Bowser and attendees hear from agencies on upcoming P3 projects.)

Window for Unsolicited Proposals Closing Soon

OP3 will be open to accept unsolicited proposals to spur innovative solutions to the District’s infrastructure needs until January 26, 2017. Detailed requirements for these proposals are included in the Public-Private Partnerships Act of 2014 as well as [OP3’s rules and guidelines](#). Additional information and forms that must be included as part of a proposal can be found at op3.dc.gov/proposals. Interested parties are encouraged to meet with the OP3 before submitting an unsolicited proposal. For additional information, please contact OP3 at op3@dc.gov or (202) 724-2128. All unsolicited proposals will undergo a robust review to determine the benefit to the residents of the District before a procurement process is advanced.
