Four Teams Compete for Daly Building Project

On July 9, 2018, OP3 received three Statements of Qualifications (SOQs) to the RFAP-Q, in addition to the original unsolicited proposal submitted for the rehabilitation of the Henry J. Daly Building, the current headquarters for the Metropolitan Police Department (MPD). Following the District's evaluation of the SOQs, the District will prequalify a number of teams, who will be the only shortlisted proposers invited to participate in a subsequent Request for Alternative Proposal (RFAP) process. Specifications are currently under development and will be made available in the RFAP. Additional information about the project can be found at op3.dc.gov/daly. If there are any further questions, please email DalyP3@dc.gov.

Smart Lighting Advisory Panel Update

The application period for the Streetlight Advisory Panel, a panel for residents and local experts in lighting, sustainability, public health, safety and other fields to share their feedback and improve the project, is now **closed**. OP3 will be announcing members of the panel in the coming weeks. For updates on the advisory panel and the overall project, please visit op3.dc.gov/streetlights or email StreetlightP3@dc.gov.

Fall Unsolicited Window Announced

OP3 has announced it's Fall 2018 window to accept unsolicited proposals, which will run from **9:00 AM on Friday, August 31, 2018 through 4:00 PM on Monday, October 1, 2018**. You can learn more about the process and submission requirements at op3.dc.gov/proposals, and we encourage anyone interested in submitting a proposal to meet with the Office first. Contact us at op3@dc.gov or 202-724-2124 to learn more.

Mayor Bowser Creates Green Bank

On July 10, 2018, Mayor Muriel Bowser signed into law the [District of Columbia Green Finance Authority Establishment Act](#), officially making Washington, DC the first city in the United States to establish a green bank. The new entity will leverage public funds to encourage private investment in sustainable infrastructure ranging from renewable energy and efficiency projects to water management systems and clean transportation. OP3 looks forward to serving on the board of the green bank and partnering with it to achieve the District's sustainability goals.
